

## Clean Energy to Construct Three CNG Stations in Ontario for Union Energy Solutions

April 20, 2018

Canada's Natural Gas Fueling Network to Expand in Important Trade Corridor

NEWPORT BEACH, Calif.--(BUSINESS WIRE)--Apr. 20, 2018-- [Clean Energy Fuels Corp.](#) (Nasdaq: [CLNE](#)) announced today that it has been awarded a contract to construct three compressed natural gas (CNG) fueling stations in Ontario, Canada for Union Energy Solutions Limited Partnership (UES), an unregulated affiliate of Union Gas – an Enbridge Company, a major Canadian natural gas storage, transmission and distribution company.

The stations, which will be in London, Windsor and Napanee, will make fueling with clean [CNG](#) possible along Highway 401 in Ontario, one of the busiest highways in [North America](#) and the main route from the Windsor border at Detroit, to Quebec City on the St. Lawrence Seaway, strategically and economically vital to trade between Canada and the U.S. The three stations will add to Clean Energy's network of over 530 natural gas fueling stations that it owns and/or operates in 42 U.S. states and other provinces in Canada, and are expected to initially distribute an estimated 600,000 gasoline gallon equivalents (GGEs) per year.

"Reducing greenhouse gases remains a high priority for North America's transportation industry," said Sarah Van Der Paelt, vice president, Union Energy Solutions Limited Partnership. "[Building these stations](#) on such an important commercial route will provide the necessary infrastructure and opportunity for fleets to make a successful transition to traditional and [renewable natural gas](#) which dramatically reduce GHGs versus diesel-fueled trucks."

"Entering into this agreement with Union Energy Solutions will enable us to provide more outlets for clean natural gas, which in turn will help reduce toxic and unhealthful diesel gas emissions in the region," said Chad Lindholm, Vice President of Sales at Clean Energy. "This network of CNG stations will enable [heavy-duty truck fleets](#) to confidently travel these routes ensuring they have sufficient fuel as they cross Canadian and provincial borders as well as travelling into the United States."

### About Union Energy Solutions

Union Energy Solutions Limited Partnership (UES) is an unregulated affiliate of Union Gas Limited – an Enbridge Company that focuses on various clean energy business initiatives in the Province of Ontario. UES is currently embarking on establishing a network of compressed natural gas (CNG) refueling stations along Ontario's 400 Series highways. For more information visit [uniongas.com/projects](#).

### About Clean Energy

Clean Energy Fuels Corp. is the leading provider of natural gas fuel and renewable natural gas (RNG) fuel for transportation in North America. We build and operate compressed natural gas (CNG) and liquefied natural gas stations (LNG) and deliver more CNG, LNG and RNG vehicle fuel than any other company in the U.S. Clean Energy sells Redeem RNG fuel and believes it is the cleanest transportation fuel commercially available, reducing greenhouse gas emissions by up to 70%.
