SELLING STOCKHOLDERS

Each of the selling stockholders, or their respective permitted transferees, pledgees, donees or their successors, may resell, from time to time, all, some or none of the shares of our common stock covered by this prospectus, as provided in this prospectus under the section entitled “Plan of Distribution” and in any applicable prospectus supplement. However, we do not know when or in what amount the selling stockholders may offer their shares for sale under this prospectus, if any.

The following table, which was prepared based on information publicly filed or supplied to us by the selling stockholders, sets forth, with respect to each selling stockholder, the name of the selling stockholder, the number of shares beneficially owned by the selling stockholder and the number of shares to be offered by the selling stockholder pursuant to this prospectus. The table also provides information regarding the beneficial ownership of our common stock with respect to each selling stockholder, as adjusted to reflect the assumed sale of all of the shares of common stock offered under this prospectus by such selling stockholder. The ownership percentages indicated in the following table are based on 88,514,691 outstanding shares of our common stock as of May 1, 2013. In computing the number of shares of our common stock beneficially owned by a person and the percentage ownership of that person, we deemed as outstanding (i) shares of common stock issuable upon conversion of the Convertible Notes held by that person, and (ii) shares of common stock that person otherwise has rights to acquire within 60 days of June 30, 2013. Such shares, however, are not deemed outstanding for the purpose of computing the percentage of ownership of any other person. Beneficial ownership as shown in the following table has been determined in accordance with the rules of the SEC.

Name of Selling Stockholder	Beneficial Ownership Prior to Offering		Number of Shares Offered Hereby	Beneficial Ownership After Offering
